Outreach

Partnership working with the Family Learning and/or Outreach teams

Courses for adults are organised in partnership with schools, Family centres and nurseries, Community hubs, mental health organisations, homeless hostels. Partners are responsible for the recruitment of learners onto our courses.

The Family Learning programme provides opportunities for parental engagement and all course content is linked to the child and the family. The courses can increase the confidence of both adults and children and enable parents and carers to better support their child's learning at school and at home.

We are particularly seeking partnerships in Surrey Heath, Spelthorne and Guildford. Outreach provides opportunities for adults to increase their confidence and boost skills & knowledge through enjoyable and local learning experiences. Short courses include numeracy, literacy, employability and wellbeing courses which can be tailored directly to the needs of the adults.
